

Learning World Teacher's Manual CD-ROMS & Windows 10

In Windows 10, some of the default settings for applications are different from previous versions of Windows.

So, if you are experiencing problems with your Learning World Teacher's Manual CD-ROM on Windows 10, there are two possible problems.

1. The application settings need to be adjusted.
2. The Adobe Reader application needs to be installed.

To start, you should check (and fix) the application settings.

1. Left click on the Windows flag.
2. Left click on the "Settings" icon.

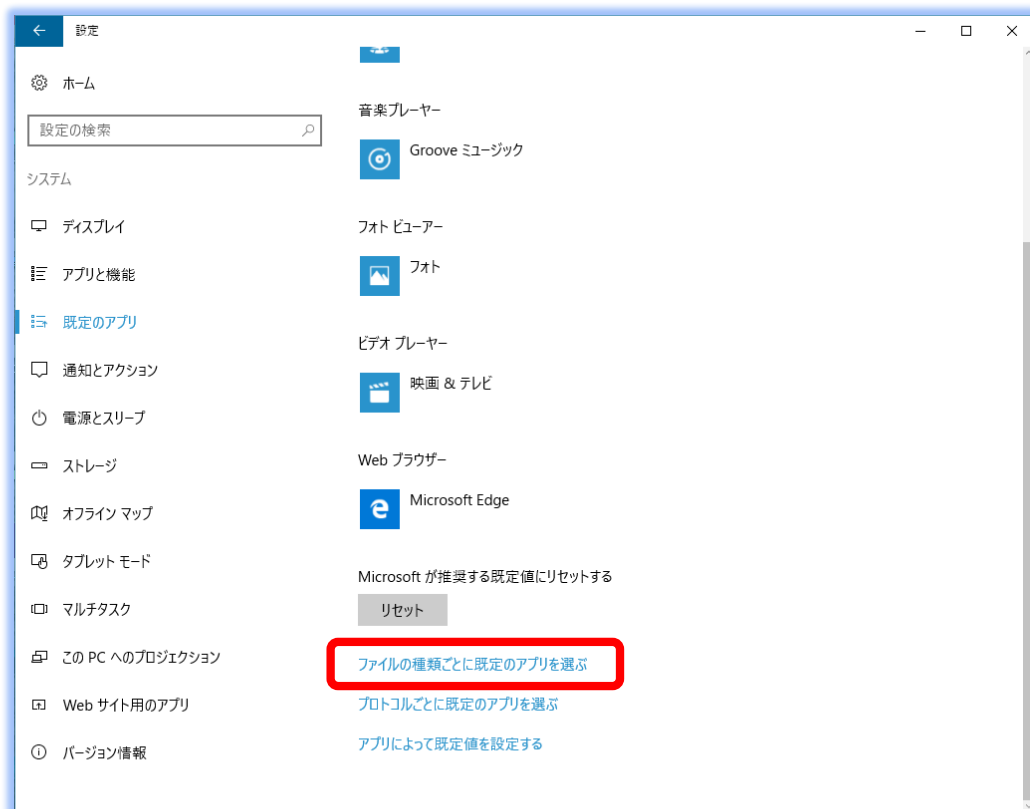

3. Left click on the "System" icon.

4. Left click on the “Apps & features” icon.

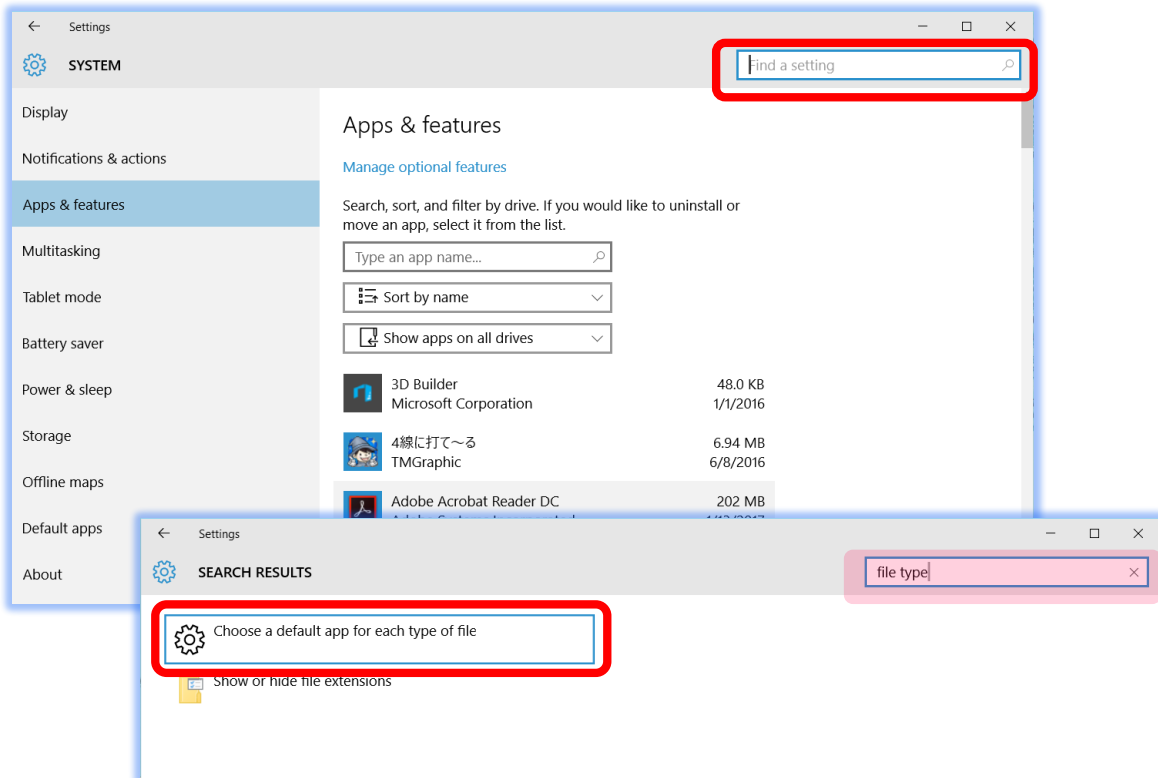

5. Left click on the text below the “reset” button:
“Choose a default app for each type of file”.

❖ If your screen looks different from the screen in step 5 (with a list of apps), please replace step 5 with these steps:

1. Use the “Find a setting” search box.
2. Type in “file type”.
3. Left click on the “Choose a default app for each type of file” icon.

6. Scroll down through the list of file types until you see “.pdf” on the left.
7. Left click on the “Microsoft Edge” icon.

8. Select the “Adobe Acrobat Reader DC” icon.
❖ If you do **not** have this icon, click on the icon that starts “Adobe” and has “Reader” in the name.

- ❖ If you do not have any icon starting with “Adobe”, you need to download and install Adobe Acrobat Reader.

<https://get.adobe.com/reader/>

(After installing Adobe Acrobat Reader, please use these instructions from the beginning to check your settings.)

Now to the right of your “.pdf” file type, you should see the “Adobe Acrobat Reader DC” icon (or other Adobe Reader icon).

And now your Learning World Teacher’s CD-ROMs will work!
